Bachelor of Arts (Honours) Accounting and Finance

3+0 in Collaboration with University of the West of England | (N/0411/6/0129) (04/31) (MQA/PA18895)

Programme Features

Employability-Focused Skills

The programme develops a broad skill set covering technical knowledge, digital literacy, critical thinking, ethical awareness, and communication, preparing graduates to be work-ready and adaptable.

Practice-Led Learning

The curriculum is grounded in a practice-led approach, integrating current research in governance, accountability, and sustainability to provide real-world insights.

Digital Capability

Digital technologies are embedded across teaching and learning to strengthen students' ability to use digital tools effectively in professional contexts.

Industry Engagement

Students engage with employers, entrepreneurs, and professional bodies locally and internationally through industry-standard financial databases, guest lectures, and applied learning

Sustainability Focus

Through real-world case studies, students are encouraged to reflect on their role in shaping a sustainable and responsible future.

Professional Development Stream

A distinctive professional development stream runs across all three levels of the programme as a core module, documenting students' developmental journey and providing a coherent narrative for future employers.

Professional Recognition

The programme offers professional qualification exemptions and uses authentic assessments and simulations to prepare graduates for careers in Accounting and Finance.

Career Prospects

Graduates can pursue roles such as financial analyst, auditor, tax consultant, and management accountant, with career opportunities in finance, consulting, banking, and corporate management.
